

Kindergarten at CLC:

a whole NEW approach

Introducing Station-Based Learning with 1800 sq. ft. of hands-on curriculum stations.

Technology

Specialized children's software on computers which have touch screens. This in-class curriculum based software is also available online.

Language Arts

Reading and writing explorations with personal writing journals.

Science

Experimentation station! Complete concept-based learning through year-long butterfly project.

Languages

Daily hebrew instruction. Weekly sign language lessons in all curriculum areas. Full-time, in-class Hebrew and English teachers.

Music

Study of orchestral music and instrumentation. Xylophones and instruction for every student.

Art

A process-based sensory course complete with cutting edge materials.

Math

Problem solving with the latest hands on materials such as Digi-Blocks
